SUPPLEMENTARY INFORMATION:

Title: PPQ Form 816; Contract Pilot and Aircraft Acceptance.

OMB Number: 0579-0298.

Type of Request: Extension of approval of an information collection.

Abstract: The Plant Protection Act (7 U.S.C. 7701 et seq) authorizes the Secretary of Agriculture, either independently or in cooperation with States, to carry out operations or measures to detect, eradicate, suppress, control , prevent, or retard the spread of plant pests and noxious weeds that are new to or not widely distributed within the United States. This authority has been delegated to the Administrator, Animal and Plant Health Inspection Service (APHIS).

As part of this mission, the Plant Protection and Quarantine (PPQ) program, APHIS, responds to introductions of plant pests to eradicate, suppress, or contain them through various programs in cooperation with State departments of agriculture and other government agencies. These programs may include release through aerial application of treatments to control plant pests.

APHIS contracts for these services, and prior to any aerial applications, requests certain information from the contractor and/or contract pilots to ensure that the work will be done according to contract specifications. Among other things, APHIS asks to see aircraft registration, the aircraft's airworthiness certificate, the pilot's license, the pilot's medical certification, the pilot's proof of flight review, the pilot's pesticide applicator's license, and the aircraft logbook. APHIS transfers information from these documents to PPQ Form 816, which is then signed by the APHIS official collecting the information and the contractor or contract pilot, indicating acceptance of the pilot and aircraft for the job

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

- (1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public reporting burden for this collection of information is estimated to average 0.26666667 hours per response.

Respondents: Contractors and/or pilots of aircraft.

Estimated annual number of respondents: 15.

Estimated annual number of responses per respondent: 1.

Estimated annual number of responses: 15.

Estimated total annual burden on respondents: 4 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of February 2012.

Kevin Shea,

Acting Administrator, Animal and Plant Health Inspection Service.
